

Bill,

3 more questions.

Could you send the corrected equipment spreadsheet to me/us in a workable/editable format?

I will email a copy of the Excel SS, Our webpage only post PDFs.

Per your responses on 11/29 and 12/7, you are still waiting for copies of your existing leases from CopyPro. Would you consider extending the response date to this RFP by a few days? Getting this information right before the RFP is due would not allow me the time to respond in an appropriate way. Has CopyPro given you any indication on when you can expect a copy of your current leases?

We will stick to the existing schedule.

I have requested a copy of the leases to post from the County Manager's office and have not received authorization at this time.

I will submit the information I receive from the Leasing Company as soon as I receive it, I anticipate it later today 12/12/17.

Thanks again,

Jason Weeks
