How to access the Northampton County GIS Data, Property Card information and Sales Data through the Northampton County, North Carolina website.

1) Open your internet browser and disable any pop-up blockers. These must be disabled in order to access certain "pdf" files that will pop up when trying to view a property card.
2) Go to the Northampton County, North Carolina homepage located at www.northamptonnc.com. This should bring you to the county home page where you will see various pictures along with "Northampton County, NC" at the top. This is important because there are numerous counties in the United States named Northampton.
3) Look below the picture and click on the one-labeled "GIS MAPS". This will take you to our GIS homepage. You will see a disclaimer with agreement of terms and conditions along with GIS office phone number.
4) Once you are at our GIS homepage you will find links to help, you access our sales and mapping information.
5) Our mapping site is filled with a wealth of information. To the left you will notice your many search options in a dropdown box. These options include but are not limited to: Owner name, property address, Parcel number, and Parcel pin. Please note the example: Enter parcel numbers without dashes.
6) Once you have selected your search option, enter the required information and watch while the property is pulled up.
7) Click on the property to zoom the property. To view the Property Record Card click on more information in the pop up box.
